Professional Summary

Software Engineer with strong CS fundamentals (OOP, DBMS, OS, DSA, Complexity Analysis) and hands-on experience in full-stack development, REST APIs, cloud deployment (Docker, CI/CD), and Generative AI systems including RAG and LLM evaluation; 700+ DSA problems solved, AIR 844 in TCS CodeVita, GATE 2026 qualified, and 6+ hackathons.

Education

2023 – 2027 B.Tech – Information Technology, **JSS Academy of Technical Education**, Noida 8.9/10 CGPA

Experience

Software Developer Intern – *SiteGuru* Jul 2026 – Aug 2026

- Developed full-stack web modules using Vue.js, Nuxt.js, and Vuetify integrated with REST APIs and SQL-based relational databases, implementing CRUD operations, authentication, and Role-Based Access Control (RBAC) across responsive interfaces.
- Debugged, tested, and optimized application modules and real-time features within an Agile/SDLC workflow, collaborating on sprint-based delivery cycles using Git/GitHub for version control.

AI Systems Evaluation Intern – *Caudal AI* Aug 2026 – Present

- Evaluate AI/LLM-generated outputs on Sentinel, an AI systems evaluation platform, as both Submitter and Reviewer, applying structured rubrics to assess correctness, quality, and edge-case handling across benchmark evaluation tasks.
- Conduct pressure-testing and difficulty assessment of evaluation tasks, leveraging Snorkel-based data-centric workflows to improve task quality and evaluation reliability.

Projects

CampusQuery – AI-Powered Campus Assistant Live Demo

- Built a scalable multi-channel AI assistant (web, WhatsApp, Telegram) with Role-Based Access Control (RBAC) serving 500+ users using GPT-4 and a Retrieval-Augmented Generation (RAG) pipeline with multilingual ASR/TTS voice support, achieving 95% context-aware accuracy.
- Implemented an admin dashboard with automated document ingestion and human-in-the-loop validation, cutting manual maintenance by 60%; deployed on Azure Blob Storage maintaining 99% system uptime.
- **Stack:** MERN Stack, GPT-4, LangChain, Pinecone, Azure Blob Storage, AI Agents, REST APIs, RBAC

CodeCompassAI – AI Developer Onboarding Platform Live Demo

- Engineered an AI platform analyzing 100+ GitHub repositories via the Google Gemini API to generate developer onboarding roadmaps with difficulty-ranked entry points, reducing contributor ramp-up time by 50%.
- Integrated ElevenLabs TTS for AI voice mentorship; implemented MongoDB Atlas smart caching (70% cache hit rate); containerized with Docker Compose for scalable, high-reliability deployment.
- **Stack:** Next.js 14, React 18, Hono.js, Google Gemini API, MongoDB, ElevenLabs TTS, Docker, Tailwind CSS

Artify – Full-Stack Social Media Platform Live Demo

- Built a full-stack social media platform enabling users to create posts, follow users, like/comment, and manage profiles with personalized feeds and image sharing.
- Implemented secure user authentication, profile management, post CRUD operations, social interactions, and responsive UI for mobile and desktop.
- **Stack:** Python, Django, HTML5, CSS3, JavaScript, SQLite

Technical Skills

Languages:	C, C++, Python, JavaScript, TypeScript, Java
Frontend:	React.js, Next.js, Vue.js, Nuxt.js, HTML5, CSS3, Tailwind CSS, Vuetify
Backend:	Node.js, Express.js, Hono.js, Django, FastAPI, REST APIs, JWT, RBAC, Microservices
Databases:	MongoDB, MySQL, SQL, Relational Databases, MongoDB Atlas, Pinecone (Vector DB)
AI & GenAI:	RAG, LangChain, GPT-4, Gemini API, AI Agents, Tool Calling, Prompt Engineering, LLM
Cloud & DevOps:	Docker, Azure Blob Storage, Git, GitHub, Vercel, Netlify, CI/CD Pipelines
CS Fundamentals:	Data Structures & Algorithms, Complexity Analysis, OOP, DBMS, Operating Systems, Computer Networks, System Design, Distributed Systems, Agile/Scrum

Achievements

- **Academic Excellence: College Topper – 3rd Year** (2025–26); **1st Rank, College and department level**; **GATE 2026 Qualified**.
- **Competitive Programming: AIR 844**, TCS CodeVita (100,000+ global participants); **700+** DSA problems solved; **500+** day coding streak on LeetCode.
- **Hackathons:** Semi-Finalist, Smart India Hackathon SIH 2025 (50,000+ national teams); Winner, Convergex Hackathon (JSS University, Noida).

Certifications

- **GenAI & Cloud Computing** – AICTE — IBM SkillsBuild (Cloud Computing, LLM , Generative AI, AWS)
- **Crash Course on Python** – Google (Python, Automation, Data Structures, Debugging, Programming)
