EDUCATION

2023 - present B.Tech (IT) - **JSS Academy of Technical Education**, Noida 8.7/10 YGPA

SKILLS

Programming Languages :	C, C++, Python, JavaScript, TypeScript, Java
Frontend Development:	HTML, CSS, Tailwind CSS, Bootstrap, React.js, Next.js
Backend and Databases :	Node.js, Express.js, Django RESTful APIs, JWT authentication, MongoDB, SQL, NoSQL
AI and LLM Systems :	Retrieval-Augmented Generation (RAG), LangChain, Pinecone, OpenAI APIs, AI Agents, Tool Calling, Knowledge Graphs
Cloud and DevOps :	Azure Blob, Cloudinary, Docker
Version Control & Deployment Tools :	Git, GitHub, Postman, JSON, VS Code, Vercel, Netlify, Render
Core computer science :	Data Structures and Algorithms (DSA), Operating system, Database Management System, Object-Oriented Programming (OOPs), REST API Development

PROJECTS

CampusQuery: [CampusQuery](#)

- Developed CampusQuery, an AI-powered campus assistant using GPT-4 and Retrieval-Augmented Generation (RAG) to deliver accurate, context-aware institutional responses with multilingual voice support across web, WhatsApp, and Telegram.
- Engineered an admin dashboard with automated document ingestion pipeline and human-in-the-loop feedback system to enhance response accuracy and reliability.
- Tech Stack: GenAI, MERN, Pinecone, Azure Blob Storage, GPT-4, ASR/TTS, LangChain, AI Agents

Kawach: [Kawach](#)

- Built Kawach, a secure MERN-based document-sharing platform implementing encryption, cloud storage integration, and a one-time QR access system with a 60-second auto-expiry window.
- Integrated automatic document deletion from both cloud storage and database after access, ensuring zero residual data and preventing unauthorized reuse.
- Tech Stack: React.js, Vite, Node.js, MongoDB, Express.js, Cloudinary, JWT Authentication

MoneySphere: [MoneySphere](#)

- Designed MoneySphere, a full-stack 3D finance dashboard enabling real-time transaction tracking, multi-card management, and interactive financial analytics.
- Developed a responsive glassmorphic UI using React, TypeScript, Tailwind CSS, and Framer Motion with dynamic charts and micro-animations, while implementing secure backend services using Node.js, Express, and MongoDB Atlas with JWT-based authentication and role-based access control.
- Tech Stack: React, TypeScript, Tailwind CSS, Node.js, Express, MongoDB, Framer Motion

ACHIEVEMENTS

- **Hackathons and contest winner:** SIH Semi-Finalist; Secured AIR 844 in TCS CodeVita; 3rd Rank at Convergen Hackathon (JSS University); Runner-Up in CodeShowdown DSA Contest (BVCOE, Delhi).
- **DSA Practice:** Solved 600+ problems with a 400+ day streak on **LeetCode** and **GeeksforGeeks**, demonstrating strong consistency in data structures and algorithms.
- **Student Placement Coordinator** – Coordinated communication between students and recruiters, assisted in organizing placement drives, and ensured smooth execution of internship and recruitment processes.
